AK® is a registred trade mark of AED BVBA, Belgium.

The PA Monitor and PA-Bass series are also available as construction kits!

THE AK® design philosophy:

Simple and cost effective design = high quality finish and sound at an affordable price!

Careful selection of parts:

Only Beyma speakers are used : quality made in Europe!

All cabinets are made of multiplex wood.

Hand-made cross-overs with high grade components.

Honest specifications: the power capacity is expressed as true AES values - no hassle with exuberant 'peak' values!

All those factors guarantee the best value/price ratio for an AK® speaker!
